Attachments: Meeting Followup on Draft Permit - Lockwood_4-21-11 Final.pdf;
Attachment 2 Permit Example and Language Like Replacement.pdf;
Attachment 1 Permit Examples Handheld Monitoring.pdf; Attachment
3 Literature Permit Example and Flow Data Single Flow Meter.pdf

Pat and Larry,

Thank you so much for meeting with us and discussing our permitting concerns. We appreciate your willingness to work out some of the permit issues that are problematic for us. To that end, we promised to provide some follow-up information that was discussed and requested at the meeting. We are hopeful that this information gives you what you need and will allow you to move forward with the permit language changes we discussed. We understand two of those will need to go to Mike Elges for approval.

Attached is a brief cover letter summarizing what we are providing to you as well as 6 attachments (referenced in the letter) that contain the specific information. Due to size, I am only providing the letter and Attachments 1-3 with this email. A second email will contain Attachments 4-6.

Let me know if you need anything else. Also please keep us informed as to your progress in trying to help us achieve permit issuance by May 15.
