Classification [] Proposed [] Adopted By Agency [] Temporary [] Emergency [] Permanent [XX]

Brief description of action: This regulation amends the Nevada Mercury Air Emissions Control Program (NMCP) – NAC 445B.3611 to 445B.3689. This program governs the precious metal mining industry in Nevada.

The regulation implements Assembly Bill 115 which was passed by the 2007 Nevada Legislature. The legislation required the State Environmental Commission to "adopt regulations prescribing the appropriate fee to be imposed on the operator of a mine with the potential to emit mercury . . ." in order to hire staff to ensure compliance with the NMCP.
